3-POLE SOFT WIRING — IN-DESK POWER

Partner In-Desk Power Box

PARTNER

Partner is a compact 2 socket in-desk power box for workstations, meeting rooms and hot desks. It sets flush into the desk surface and connects to a 3-pole soft wiring system with an 800mm inline splitter lead, so power and USB charging are right where they are needed. A closing lid gives a clean, near-flush finish when not in use, and integrated ratchet clips allow tool-less installation in surfaces 2–40mm thick.

TECHNICAL SPECIFICATIONS

Sockets	**2 x GPO**
