3-POLE SOFT WIRING — IN-DESK POWER

Puma Panel-Mount Power & USB Module

PUMA

Puma brings power and USB charging to the places a desk-top unit cannot reach: desk screens, modesty panels, joinery and soft furnishings. It clips or screws into a panel cut-out for a flush finish, and a rotating cable grip lets the lead leave from the rear or the side. Designed for panel mounting in desk screens, modesty panels or soft furniture, with internal segregation between power and data/AV components.

TECHNICAL SPECIFICATIONS

Sockets	**2 x GPO**
USB	**1 x USB-A/C 25W (swappable module)**
Power connection	**AU plug, 1.0m lead**
Mounting	**Panel mount, clip or screw fixing**
