Motorised Power Tower

Part number MT3P2USB

Motorised Power Tower

The Cableduct motorised power tower puts three power points and two USB chargers exactly where you work, then disappears back into the benchtop at the touch of a button. It is simple to install and power up, and works in just about any desk, workbench or kitchen island. Use it in offices, meeting rooms, kitchens, garages and workshops wherever you want power on hand without cables and power boards on the surface.

Part number	Finish	Outlets	USB

Motorised Ultra-Slim Pop-Up Outlet

Part number MTW2P2USB

Motorised Ultra-Slim Pop-Up Outlet

An ultra-slim, motorised pop-up outlet for desks, meeting tables and countertops where space is tight. Press the button and it rises to give you two power points plus USB A and USB C charging, then retracts to sit flush with the surface. The black model adds a wireless charger in the lid, so phones can charge on top even when the outlet is closed.

Part number	Finish	Outlets	Charging
MTW2P2USB-BK	Black	2 x 10A Australian GPO	USB A, USB C and wireless charging
MTW2P2USB-SV	Silver	2 x 10A Australian GPO	USB A and USB C

Open

Closed

MTW2P2USB-BK, black with wireless charging

Black finish with a wireless charging pad built into the lid, so phones charge on the desk surface with no cable.

Outlets	**2 x 10A Australian GPO**
Charging	**USB A, USB C and wireless**
Operation	**Motorised, push-button lift and retract**
Closed	**Sits flush with the desk or countertop**

DOB Recessed Pop-Up Outlet

Part number DOBS3P2U

DOB Recessed Pop-Up Outlet

The DOB recessed pop-up outlet sits neatly in the desk or benchtop and lifts to give three power outlets plus USB charging. Closed, it leaves a clean round lid on the work surface. Wireless versions add a charging pad on top of the lid, so phones can charge without a cable even when the outlet is closed.

Part number	Finish	Power	Charging
DOBS3P2U-BLK	Black	3 power outlets	USB A and C
DOBS3P2U-WH	White with chrome ring	3 power outlets	USB

CDS4P Pull-Up Power Tower

Part number PUTAL4P

CDS4P Pull-Up Power Tower

The CDS4P is the Cableduct manual pull-up power tower: a simple, reliable way to add four power points to a desk, bench or meeting table. Pull the tower up to reveal the outlets, and push it back down when you are finished to leave just a 100mm round lid on the surface. The four 10A outlets are auto-switched, so there are no switches to leave on, and there is nothing to power or maintain in the lifting mechanism.

Part number	Lid	Outlets	Operation
PUTAL4P	100mm diameter	4 x 10A auto-switched	Manual pull-up

Open

Closed

PUTAL4P pull-up power tower

Four auto-switched 10A outlets in a pull-up tower that closes to a 100mm round lid.

Lid	**100mm diameter**
Outlets	**4 x 10A auto-switched**
Operation	**Manual pull-up, push down to close**
