FLOOR & TABLE GROMMETS — DESK GROMMETS

Brush Desk Grommet 80mm

132037

This brush grommet is a cable management grommet designed for a standard 80mm desktop installation aperture. A dense high-density nylon brush strip ring neatly conceals power and data cables as they pass through desks, floor boxes and cable management systems, while helping to block dust and drafts. The fire-retardant polycarbonate body keeps a low 3.5mm profile and secures with an integrated locking nut, making it a durable, professional finish for office and home-office furniture.

TECHNICAL SPECIFICATIONS

Part Number	**132037**
Outer Diameter	**107.9mm**
Installation Cutout	**80mm (industry standard)**
Brush Ring Diameter	**53.4mm (10mm central aperture)**
Height / Depth	**3.5mm (low profile)**
Surface Thickness Range	**1mm – 40mm**
Body Material	**Fire-retardant polycarbonate**
Brush Material	**High-density nylon (0.15mm strands) in a galvanised steel frame**
Fixing	**Integrated locking nut**
Brush Colour	**Black**
Bezel Colour	**White**

DIMENSIONS

All dimensions nominal

OUTER DIAMETER	DESKTOP CUT-OUT
Ø107.9 mm	**Ø80** mm
