Cut-Out Required	**80mm circular hole in the desktop surface**
Fixing	**Recessed cup drops into the cut-out; lid secures via the integrated lock point**

DIMENSIONS

All dimensions nominal

DESKTOP CUT-OUT
Ø80 mm

KEY FEATURES

- Hinged split-lid design allows cables to pass through while keeping the opening concealed when not in use
- Recessed cup housing sits flush with the desktop surface for a low-profile finish
- Lockable lid point helps keep the cover secure in everyday use
- Larger 80mm opening accommodates bigger multi-pin plugs and cable bundles
- Also available in a range of colours and sizes across the Cableduct grommet range

TYPICAL APPLICATIONS

Cable access points on office desks, workstations and boardroom tables	Power and data cable pass-through under workstations and shared workbenches
Concealing cable penetrations in desktops without unsightly gaps
