FLOOR BOXES — ABOVE GROUND FLOOR BOXES

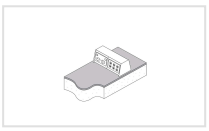

AFB20/2 Above Ground Floor Box Natural Anodised (Back to Back Blank)

AFB20/2-NA

The AFB20/2-NA is a double-width back-to-back above-ground floor box with a Natural Anodised aluminium cover, providing 4 x Standard Series power/data/AV outlet provisions (2 per side). The steel body is manufactured from Galvanised Steel. Ideal for island workstations and central floor installations. Dimensions: 247 × 110 × 110mm. Not IP rated — suitable for dry, indoor environments only. Outlets not included — accepts standard series inserts. Must be installed by a licensed electrician. Compliant with AS3000 SAA Wiring Rules.
