AK SERIES SKIRTING DUCT — COMPLETE SYSTEM

AK150/35 Aluminium Skirting Duct System, 150mm × 35mm

AK150/35

The AK150/35 is a 150mm x 35mm AK Series aluminium skirting duct, supplied in 3.0m lengths with a choice of drop-in or clip-on lid section. It provides a clean, concealed housing for power and data cabling in office and commercial fit-outs. This data sheet lists every AK150/35 system part (duct body, lid sections, corners, end caps, GPO / Data front covers and the AK35SK shroud kit) in each stocked colour; see the parts list on page 2.

— = not currently listed in this colour; contact us for availability. Other colours available in the Dulux or Interpon powder coat range on request.

HOW THE SYSTEM GOES TOGETHER

1. Fix the **AK150/35** duct body (3.0m) to the wall; cut to length on site as required.
2. Run power and data cabling in the 2 separate divisions.
3. Fit a **150mm drop-in or clip-on lid section** (1.2m) to enclose the cabling.
4. Finish changes of direction with **internal and external corners**, and close open ends with **end caps**.
5. At each outlet position fit an **AK35SK shroud kit** with an AK Series **front cover** to make a complete GPO or Data mounting kit. Earth the kit and duct with the supplied continuity strap.
