

LOCKOUT TAGOUT DEVICES — CIRCUIT BREAKER LOCKOUT SERIES

Twist-Screw Universal Circuit Breaker Lockout

LOMCBLSTW

The LOMCBLSTW is a twist-screw universal circuit breaker lockout designed to secure miniature circuit breakers (MCB) and moulded case circuit breakers (MCCB) with a handle width up to 12mm. A built-in twist locking screw allows tool-free, hand-tight installation, and once locked the screw is fully covered — preventing tampering or accidental removal. Manufactured from rugged nylon and chrome-plated copper for long service life in demanding industrial environments.

TECHNICAL SPECIFICATIONS

Part Number	LOMCBLSTW
Type	Twist-Screw Universal Circuit Breaker Lockout
Material	Nylon + Chrome-Plated Copper
Colour	Red
Dimensions	56.5 x 34 x 19mm (L x W x T)
Breaker Compatibility	MCB & MCCB, Handle Width ≤12mm
Installation	Tool-Free, Built-In Twist Locking Screw
Padlock Hole	Yes — Accepts Padlock/Hasp Shackle ≤8.6mm

KEY FEATURES

- Tool-free installation — twist screw tightens by hand, no tools required
- Screw fully covered once locked — prevents tampering and accidental removal
- Rugged nylon + chrome-plated copper construction
- High-visibility red for job site safety
- Complies with LOTO safety management standards

TYPICAL APPLICATIONS

✓ Electrical maintenance and panel servicing	✓ Industrial plant and equipment isolation
✓ Commercial and residential switchboard work	✓ General LOTO compliance for miniature and moulded case breakers

Compliance & Notes: Supports Australian WHS Lockout/Tagout (LOTO) requirements. Use as part of a complete LOTO program together with a Cableaway Safety Padlock and Lockout Tag. Cableaway reserves the right to alter specifications without notice.
