

ELECTRICAL LOCKOUT RANGE

Miniature Circuit Breaker Lockout (Pin Out)

LOMCBPOSTD

Protect your team, your site and your reputation with Cableaway's Miniature Circuit Breaker Lockout (Pin Out). Designed for total electrical safety, this push-button lockout fits most standard single and multi-pole breakers without tools, keeping them securely isolated during maintenance. Made from strengthened nylon, it's built to withstand demanding site conditions while helping keep lockout/tagout (LOTO) procedures compliant with Australian safety standards. Once fitted, it locks off with a compatible safety padlock — giving total peace of mind that the circuit can't be switched back on until work is complete.

TECHNICAL SPECIFICATIONS

Part Number	LOMCBPOSTD
Product Range	Electrical Lockout Range
Device Type	Circuit Breaker Lockout
Suits	Most Standard Breakers
Installation	Push-Button — No Tool Required
Padlock Compatibility	Up to 7mm Diameter Shackle
Material	Strengthened nylon

SUITABILITY

Fits most standard single and multi-pole circuit breakers	
BREAKER TYPE Single & Multi-Pole	PADLOCK SHACKLE Up to 7mm

KEY FEATURES

- Secures breakers against re-energisation
- Fits in seconds with basic hand tools
- Locks off with a compatible safety padlock
- Supports compliant LOTO / WHS procedures
- Tool-free push-button installation
- Suits single and multi-pole breakers
- Part of a full electrical lockout device range

TYPICAL APPLICATIONS

Electrical switchboards	Maintenance & shutdown work
Construction sites	Industrial plant & facilities
Commercial building services	Utility & contractor works

Material	Strengthened nylon

Lockout fitted ready for padlock (not to scale)

ORDERING INFORMATION

Part Number	LOMCBPOSTD
Range	Electrical Lockout Range
Related	LOPADLOCK — Nylon Safety Padlock

INSTALLATION & USE

Position the lockout over the breaker toggle and press to engage the pin — no tool required. Once fitted, pass the shackle of a safety padlock (up to 7mm diameter) through the lockout body and lock closed so the breaker cannot be switched back to ON. Attach a lockout tag per your site's isolation procedure, and only remove once work is safely complete.

Compliance & Notes: Cableaway lockout devices are designed to support compliant lockout/tagout (LOTO) procedures under Australian WHS requirements, but the suitability of any lockout for a specific circuit breaker make and model should always be confirmed before use. Always follow your site's isolation procedures and use an appropriately rated safety padlock. Cableaway reserves the right to alter specifications without notice.
