

LOCKOUT TAGOUT DEVICES — SAFETY LOCKOUT SERIES

Nylon Lockout HASP

LONYHASP

The Cableaway Nylon Lockout HASP allows up to 6 padlocks to be applied simultaneously, making it ideal for multiple trades working on the same equipment or circuit. Constructed from durable, non-conductive nylon, the HASP keeps circuit breakers and isolation points securely locked out during maintenance, preventing unexpected re-energisation. A must-have for compliant Lock Out Tag Out (LOTO) procedures across electrical and industrial worksites.

TECHNICAL SPECIFICATIONS

Part Number	LONYHASP
Series	Lockout Tagout — Safety Lockout Series
Type	Lockout HASP — Nylon
Padlock Capacity	Up to 6 × Padlocks
Material	Non-Conductive Nylon
Colour	Red
Standard	AS/NZS 4836 Lockout/Tagout

KEY FEATURES

- Accepts up to 6 padlocks — ideal for multi-trade LOTO procedures
- Non-conductive nylon construction for electrical safety
- Prevents unexpected re-energisation during maintenance
- Lightweight and durable — suitable for daily site use
- Compliant with AS/NZS 4836 Lockout/Tagout procedures
- Compatible with all standard safety padlocks

TYPICAL APPLICATIONS

✓ Electrical switchboard isolation	✓ Multi-trade maintenance lockout
✓ Industrial equipment isolation	✓ Construction site safety
✓ Manufacturing plant shutdowns	✓ LOTO compliance programs

Compliance & Notes: For use as part of a compliant Lock Out Tag Out (LOTO) program per AS/NZS 4836. Always follow site-specific isolation procedures. Padlocks sold separately — see LOPADLOCK and LOPADLOCKKA.
