

LOCKOUT TAGOUT DEVICES — CIRCUIT BREAKER LOCKOUT SERIES

Mini Plug Lockout Box

LOPLS

The LOPLS is a compact plug lockout box designed to secure small household and industrial plugs, preventing unauthorised connection to a power source during maintenance or servicing. Its dual-opening hexagonal clamshell design encloses cables and plugs up to 13mm in diameter, and two padlock holes allow up to two workers to apply their own lock for group lockout procedures. Manufactured from high-strength, corrosion-resistant polypropylene (PP).

TECHNICAL SPECIFICATIONS

Part Number	LOPLS
Type	Mini Plug Lockout Box
Material	Polypropylene (PP)
Colour	Red
Dimensions	51 x 89mm (W x H)
Cable/Plug Compatibility	Diameter ≤13mm
Padlock Holes	2 — Supports 2-Worker Group Lockout
Design	Dual-Opening Hexagonal Clamshell

KEY FEATURES

- High-strength, corrosion-resistant polypropylene construction
- Dual-opening hexagonal design fits a wide range of plug shapes
- 2 padlock holes for simultaneous multi-worker lockout
- Ideal for small household and industrial plugs
- Complies with LOTO safety management standards

TYPICAL APPLICATIONS

✓ Appliance and equipment servicing	✓ Manufacturing and facilities maintenance
✓ Electrical maintenance and isolation of small plugs	✓ Group lockout procedures requiring multiple padlocks

Compliance & Notes: Supports Australian WHS Lockout/Tagout (LOTO) requirements. Use as part of a complete LOTO program together with a Cableaway Safety Padlock and Lockout Tag. Cableaway reserves the right to alter specifications without notice.
