

LOCKOUT TAGOUT DEVICES — SAFETY LOCKOUT SERIES

Out of Service Lockout Tag

LOTAG00S

The Cableaway Out of Service Lockout Tag is a bold, high-visibility hazard-striped tag that clearly warns workers not to operate isolated equipment. The reverse side carries a full isolation record — defects, company name, who placed the tag, date/time and the equipment or plant affected — so every worker on site knows exactly why it's locked out and who to speak to. Made from tough, tear-resistant, weatherproof material with a reinforced brass eyelet for secure attachment.

TECHNICAL SPECIFICATIONS

Part Number	LOTAGOOS
Type	Out of Service Lockout Tag
Material	Tear-Resistant Weatherproof Material
Sides	Double-Sided — Warning Front, Isolation Record Reverse
Write-On Fields	Defects, Company Name, Tag Placed By, Date/Time, Equipment/Plant

KEY FEATURES

- Bold "OUT OF SERVICE — NOT TO BE OPERATED" warning on a high-visibility hazard-stripe background
- Double-sided design — warning message on the front, full isolation record on the back
- Dedicated fields for defects, company name, tag placed by, date/time and equipment/plant
- Tear-resistant and weatherproof — stays readable in tough site conditions
- Pre-punched brass eyelet for attachment to lockout devices or energy control points
- Supports LOTO accountability and communication requirements

TYPICAL APPLICATIONS

✓ Tagging faulty or out-of-service equipment and machinery	✓ Isolating circuits, breakers and plant during repair or maintenance
✓ Industrial and commercial LOTO compliance	✓ Facilities management and maintenance teams

Compliance & Notes: For use as part of a compliant Lock Out Tag Out (LOTO) program per AS/NZS 4836. Tags must be used in conjunction with a lockout device — never as a substitute for a physical lock. Cableaway reserves the right to alter specifications without notice.
