

PEMSA REJIBAND® — MESH CHANNEL S-PLUS SYSTEM

## Mesh Channel S-Plus 500mm — Pre-Galvanised (PG)

**63022504**

The Pems Mesh Channel S-Plus is an omega-profile steel mesh channel with a universal connection system for mounting Rejiband® and Pemsaband® trays from the ceiling via threaded rod. Featuring a Click fixing system for fast, tool-free assembly, the S-Plus is available in 150mm, 300mm, 500mm and 600mm widths in a Pre-Galvanised (PG) finish. Ideal for light commercial and industrial cable management installations.
