

Fast Clip Base Joint EZ

64010036

A steel Click-system base joint for joining the base of Rejiband® mesh tray sections. Suitable for 300–600mm wide trays in 60mm and 100mm depths. Tool-free assembly meets IEC 61537 mechanical strength and electrical continuity requirements.

TECHNICAL SPECIFICATIONS

Part Number	64010036
Type	Base section joint
Compatible Trays	Rejiband® 300–600mm wide
Compatible Depths	60mm and 100mm
Connection	Click system — tool-free
Standard	IEC 61537
Electrical Continuity	<50 mΩ per IEC 61537
Material	Steel
Surface Finish	EZ3 — Electrogalvanised
Available Finishes	EZ3, GC, 316L, BK8
Manufacturer	Pemsa Cable Management — Spain

PROTECTION SYSTEMS AVAILABLE

Code	Description	Typical Use
EZ3	Electrogalvanised (EZ3)	General indoor / light outdoor
GC	Hot-Dip Galvanised	Harsh outdoor / high-corrosion
316L	Stainless Steel 316L	Marine, food & pharmaceutical
BK8	High-Resistance Coating	Heavy-duty applications

KEY FEATURES

- **Click system base joint** — specifically designed for joining the base of Rejiband® tray sections
- **No tools required** — Click assembly for fast installation
- **IEC 61537 compliant** — mechanical strength and electrical continuity guaranteed
- Suitable for **300–600mm wide trays** in 60mm and 100mm depths
- Ensures reliable joint between tray sections without screws

TYPICAL APPLICATIONS

✓ Commercial cable tray systems	✓ Data centre cable runs
✓ Industrial electrical fit-outs	✓ Tray joins in tight spaces
✓ Horizontal tray runs	✓ Rejiband® system installation
