

Rejiband Bend Clip EZ

64010072

A metal Click-system joining piece for creating bends with Rejiband® wire mesh trays. Attaches without screws by placing the clip inside the inner curve of the bend. Tool-free assembly for fast, repeatable bends in EZ3 electrogalvanised finish.

TECHNICAL SPECIFICATIONS

Part Number	64010072
Type	Bend clip / joining piece for bends
Compatible Trays	Rejiband® wire mesh trays
Connection	Click system — no screws required
Placement	Inner curve of the bend
Material	Steel
Surface Finish	EZ3 — Electrogalvanised
Available Finishes	EZ3, GC, 316L
Manufacturer	Pemsa Cable Management — Spain

PROTECTION SYSTEMS AVAILABLE

Code	Description	Typical Use
EZ3	Electrogalvanised (EZ3)	Indoor / commercial
GC	Hot-Dip Galvanised	Outdoor / industrial
316L	Stainless Steel 316L	Marine / food industry

KEY FEATURES

- **Click system** — attaches without screws, placed inside the tray bend
- **Tool-free assembly** — fast and repeatable bend creation on site
- Designed specifically for **Rejiband® Rapide** bend configurations
- Available in EZ3, GC and 316L finishes to match the tray system
- Compact design — does not obstruct cable routing through the bend

TYPICAL APPLICATIONS

✓ Tray direction changes	✓ Horizontal & vertical bends
✓ Corner sections on cable runs	✓ Site-formed bends
✓ Commercial & industrial routing	✓ Data centre cable paths
