

Waterfall Cable Dropout PG

67010016

An adjustable-angle steel cable dropout accessory for the exit of data and power cables from Rejiband® wire mesh trays. The waterfall design protects cable insulation at exit points. Available in Pre-Galvanised (PG) and Hot-Dip Galvanised (GC) finishes.

TECHNICAL SPECIFICATIONS

Part Number	67010016
Type	Waterfall cable dropout
Compatible Trays	Rejiband® wire mesh trays
Angle	Adjustable
Cable Types	Data & power cables
Material	Steel
Surface Finish	PG — Pre-Galvanised
Available Finishes	PG, GC
Manufacturer	Pemsa Cable Management — Spain

PROTECTION SYSTEMS AVAILABLE

Code	Description	Typical Use
PG	Pre-Galvanised (PG3)	General indoor use
GC	Hot-Dip Galvanised	Outdoor / harsh environments

KEY FEATURES

- **Adjustable angle** — adapts to suit various cable exit angles
- **Waterfall design** — smooth, rounded edges protect cable insulation
- Suitable for **data and power cables** exiting the tray
- Pre-Galvanised (PG) or Hot-Dip Galvanised (GC) finish options
- Compatible with the full Rejiband® tray system

TYPICAL APPLICATIONS

✓ Cable exit points on tray	✓ Data cable dropouts
✓ Power cable dropouts	✓ Tray-to-equipment cable routing
✓ IT & communications fit-outs	✓ Commercial electrical installations
