

Data/Power Cable Dropout Poly

67020039

A polymer plastic Click-system cable dropout fitting for Rejiband® wire mesh tray. Allows data and power cables to exit the tray smoothly without kinking or damage. The rounded polymer body eliminates sharp edges at cable exit points for safe, compliant installations.

TECHNICAL SPECIFICATIONS

Part Number	67020039
Type	Polymer cable dropout — data & power
Compatible Trays	Rejiband® wire mesh trays
Connection	Click system — tool-free
Material	Polymer / Polyamide (black)
Cable Types	Data cables and power cables
Surface Finish	Black Polyamide — non-corroding
Manufacturer	Pemsa Cable Management — Spain

Black polyamide (polymer) construction — no metallic surface finish code.

KEY FEATURES

- **Polymer construction** — no sharp edges for safe cable exit
- **Click system** — assembles without tools directly onto tray
- Prevents **cable kinking** at exit points — protects data and power cables
- Specifically designed for **data and telecommunications cabling**
- Black polyamide finish — corrosion-proof and lightweight

TYPICAL APPLICATIONS

✓ Data cable exits	✓ Telecom & IT cable exits
✓ Power cable dropouts	✓ Structured cabling runs
✓ Data centres	✓ Commercial & office fit-outs
