

Channel Strut Clip 316L

67060050

A stainless steel (316L) clip for connecting Rejiband® wire mesh tray to 41×21mm or 41×41mm channel/strut. Identical function to the GC version but in INOX 316L stainless steel for marine, food industry, pharmaceutical and highly corrosive environments.

TECHNICAL SPECIFICATIONS

Part Number	67060050
Type	Channel / strut clip — stainless
Compatible Trays	All Rejiband® widths
Compatible Channel	41×21mm and 41×41mm strut
Fixing	Tool-free clip fastening
Material	Stainless Steel 316L
Surface Finish	INOX — I316L
Manufacturer	Pemsa Cable Management — Spain

PROTECTION SYSTEMS AVAILABLE

Code	Description	Typical Use
316L	Stainless Steel 316L (INOX I316L)	Standard finish — marine / food / pharma

316L Stainless version. Hot-dip galvanised GC version also available — see part 67030049.

KEY FEATURES

- Connects Rejiband® tray to **standard 41×21mm or 41×41mm strut**
- **316L Stainless Steel** — superior corrosion resistance for harsh environments
- **Tool-free fastening** — compatible with all channel types
- Ideal for **marine, food, pharmaceutical and coastal** applications
- Works with the full width range of Rejiband® trays

TYPICAL APPLICATIONS

✓ Marine & coastal installations	✓ Food & beverage processing
✓ Pharmaceutical environments	✓ Chemical plants
✓ Highly corrosive environments	✓ Hygienic area cable management
