

Earth Terminal (16–35mm²)

68000032

A brass earth terminal for equipotential bonding of Rejiband® wire mesh trays or for connection to the protective conductor and earthing of electrical installations. Suitable for conductors of 4.5–6.5mm diameter (16–35mm² cable cross-section).

TECHNICAL SPECIFICATIONS

Part Number	68000032
Type	Earth / bonding terminal
Material	Brass
Conductor Diameter	4.5 mm to 6.5 mm
Cable Cross-section	16 mm ² to 35 mm ²
Compatible Trays	Rejiband® and Pemsaband®
Use	Equipotential bonding / earthing
Standard	IEC 61537
Fixing Hardware	EZ3 Electrogalvanised
Manufacturer	Pemsa Cable Management — Spain

For larger conductors (16–50mm²), see Earth Terminal part 68000034.

KEY FEATURES

- **Brass construction** — excellent electrical conductivity for reliable bonding
- Suitable for **4.5–6.5mm diameter conductors** (16–35mm² cable)
- **IEC 61537 compliant** — ensures earthing requirements are met
- Attaches directly to Rejiband® and Pemsaband® tray systems
- Provides compliant **equipotential bonding** for electrical safety

TYPICAL APPLICATIONS

✓ Tray earthing & bonding	✓ Protective conductor connection
✓ IEC 61537 compliance	✓ Electrical safety requirements
✓ 16–35mm ² earth conductors	✓ Commercial & industrial installations
