

Earth Terminal (16–50mm²)

68000034

A brass earth terminal for equipotential bonding of Pemsaband® trays and Megaband® cable ladders, or for connection to the protective conductor and earthing of electrical installations. Suitable for conductors of 4.5–8mm diameter (16–50mm² cable cross-section).

TECHNICAL SPECIFICATIONS

Part Number	68000034
Type	Earth / bonding terminal
Material	Brass
Conductor Diameter	4.5 mm to 8 mm
Cable Cross-section	16 mm ² to 50 mm ²
Compatible Trays	Pemsaband® and Megaband®
Use	Equipotential bonding / earthing
Standard	IEC 61537
Fixing Hardware	EZ3 Electro galvanised
Manufacturer	Pemsa Cable Management — Spain

For smaller conductors (16–35mm²), see Earth Terminal part 68000032.

KEY FEATURES

- **Brass construction** — excellent electrical conductivity for reliable bonding
- Suitable for **4.5–8mm diameter conductors** (16–50mm² cable)
- **Larger capacity** than part 68000032 — accommodates up to 50mm² cable
- For Pemsaband® trays and Megaband® cable ladder systems
- Provides compliant **equipotential bonding** for electrical safety

TYPICAL APPLICATIONS

✓ Tray earthing & bonding	✓ Protective conductor connection
✓ IEC 61537 compliance	✓ Large conductor bonding
✓ 35–50mm ² earth conductors	✓ Megaband® ladder earthing
