SKIRTING DUCT — PVC SKIRTING DUCT 50 X 105MM

PVC Skirting Duct 50 x 105mm (White) — Complete System

DUCT BODY · COVER · PARTITION · FITTINGS · OUTLET MOUNTING

Cableaway's 50 x 105mm PVC Skirting Duct is a wall-mounted cable management trunking system for the containment, protection and reticulation of power, data and AV cabling. Manufactured to EN 50085-2-1 with an IP40 ingress rating and IK07 impact resistance, it is built from durable white PVC that won't corrode and carries no electrical continuity — a safe, non-metallic option for schools, healthcare and childcare facilities where a traditional metal skirting duct can't be used.

TECHNICAL SPECIFICATIONS

Size	**105mm wide × 50mm deep**
Length	**2000mm (2m lengths)**
Material	**PVC, white**
IP / Impact Rating	**IP40 / IK07**
Standard	**EN 50085-2-1**
Operating Temperature	**-5°C to +60°C**
Compartments	**1; expandable to 2 with Division Partition**
Usable Cross-Section	**4300mm² (with 85mm cover)**

KEY FEATURES

- Non-metallic PVC — won't corrode and carries no electrical continuity
- Suits Cat5e / Cat6 / Cat6A data alongside GPO power circuits
- Snap-on 85mm flexible cover clips onto straights and angles
- Division partition separates power and data

TYPICAL APPLICATIONS

✓ Schools & universities	✓ Healthcare & childcare
✓ Commercial offices	✓ Refurbishments

DUCT & COVER — Duct Body, Cover & Division Partition — 2.0m Lengths

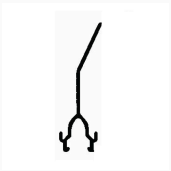

The duct body is supplied without a cover in 2m lengths. Fit the 85mm flexible snap-on cover for a complete run with a 4300mm² usable cross-section, and add the division partition to create two compartments that separate power and data.

20-104-22
PVC skirting duct body

24-105-22
85mm flexible cover

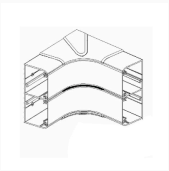

24-105-82
Division partition

Part No.	Description	Length	Notes
20-104-22	PVC skirting duct body (white)	2.0m	Body only — cover sold separately
24-105-22	85mm flexible cover (white)	2.0m	Snap-on; clips onto straights and angles
24-105-82	Division partition (white)	2.0m	Splits duct into 2 compartments

FITTINGS Corners, End Caps & Joiners

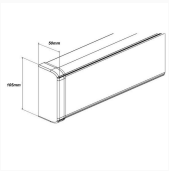

Matching white fittings to finish corners, ends and joins neatly across the run.

10-106-02
Internal corner kit

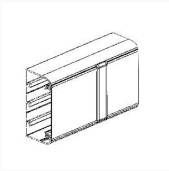

10-106-22
External corner kit

20-107-02
Blank end cap

20-106-91
Body joiner kit

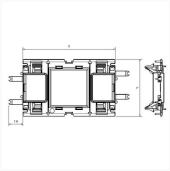

10802
85mm cover joint

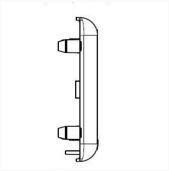

Part No.	Description	Pack / Range	Notes
10-106-02	Internal corner kit	Adjustable 85–95°	Matches body and cover
10-106-22	External corner kit	Adjustable 60–120°	Matches body and cover
20-107-02	Blank end cap	–	Terminates the end of a run
20-106-91	Body joiner kit	–	Aligns and joins two duct body lengths
10802	85mm cover joint	Pack of 10	Joins straight lengths of cover

OUTLETS Outlet & Switch Mounting

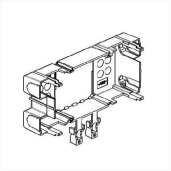

Mount standard power, data and switch mechanisms directly in the duct run.

10916
Universal support frame

10952
Standard Australian GPO / data mounting frame

10917
Switch plate mount back box

Part No.	Description	Fits	Notes
10916	Universal support frame, 3-module	85mm cover	Mounts standard 45 × 45mm mechanisms
10952	Standard Australian GPO / data mounting frame	50 × 105mm duct	–
10917	Switch plate mount back box	85mm cover	Depth behind cover for GPO / switch mechanisms
