SD SERIES ALUMINIUM SKIRTING DUCT — 50 X 150MM 2-CHANNEL (NATURAL ANODISED)

50 x 150mm 2-Channel Aluminium Skirting Duct — Complete System (Natural Anodised)

SD50150-2CH-ANODISED

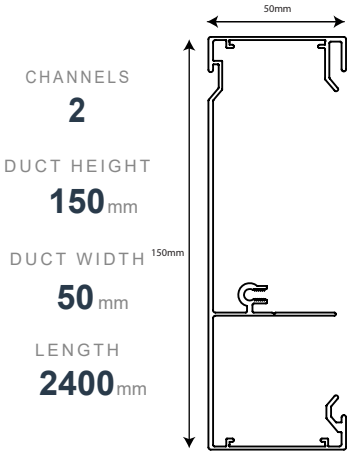

Cableaway's SD Series skirting duct is the easiest way to house and distribute power and data cabling, from large commercial fit-outs to the small home office. It mounts directly to the wall with no building modifications required, giving a clean, flexible cable management system for now and into the future. The 50 x 150mm duct is available in 2-channel configuration, separating power from data/AV cabling along a 2.4m extruded aluminium length. It handles Cat5, Cat6 and Cat6A data cabling, and — using Cableaway's 45 Series multimedia outlets — audio/visual connections including microphone, HDMI, VGA and component video. This datasheet covers the complete 50 x 150mm system in Natural Anodised: duct body, both lid options, and the full accessory range needed for a finished installation.

Compliance & Installation: Cableaway SD Series skirting duct is manufactured from extruded aluminium and finished to AS/NZS standards for surface-mounted cable management. Installation must be carried out by a licensed electrician where power circuits are involved, in accordance with AS/NZS 3000 Wiring Rules. Earth continuity accessories (Internal Butt Join Earthing Kit) must be fitted at every joint to maintain earth continuity along the duct run where metallic duct is used for power reticulation. Cableaway reserves the right to alter specifications without notice.

Custom finishes: in addition to the standard finishes shown, Cableaway can powder coat skirting duct components to any Dulux or Interpon colour on request — visit dulux.com.au or interpon.com.au for the full colour range, or call 1300 883 452.
