

UNDER DESK CABLE BASKET — DOUBLE TIER (KITDT)

Under Desk Cable Basket — Double Tier KIT

SWUDB●●●WH-KITDT — White Powder Coat

The Double Tier Under Desk Cable Basket KIT provides two stacked cable management channels under the desk, offering double the capacity of a single tier system. Use one tier for power cables and the other for data and AV cables to maintain clean segregation. The double-tier mounting brackets are included and fix securely to the desk underside. Ideal for high-density workstations with heavy cable loads.

Kit Contents: 2× steel mesh baskets (stacked) + 2× double-tier mounting brackets
